

Know Where Your Money Is Going

Start Receiving Alerts Today!

Enrolling in VISA Purchase Alerts benefits you by providing:

- **Security** - Keep your account secure by getting alerts for transactions in real-time and immediately identify potentially fraudulent activity.
- **Control** - Take an active role by tracking your spending and staying on top of account balances.
- **Convenience** - Choose your alerts to what makes sense to you.

You can set up the VISA purchase alert triggers that are right for you by logging into <https://usa.visa.com/pay-with-visa/featured-technologies/purchase-alerts.html>.

You'll need to follow three steps to enroll.

- Check the eligibility of the card at <https://purchasealerts.visa.com/vca-web/check>. Enter the first nine digits on your card. If the card is eligible, you will need to create an account.
- You will register your mobile device and email to receive VISA Purchase Alerts. During the registration of the email address, a verification email with a code will be sent to you. That code needs to be entered to confirm the email address. During the enrollment of your mobile phone number, a text message will be sent with the code that needs to be entered to verify the mobile number. All card information will then need to be entered and you will be required to agree to the terms and conditions.
- You can then choose the notification triggers that match our needs. Options include international purchases, purchases exceeding a set amount, purchases made on the Internet or over the phone, and whether you want both an email and text.

Protect yourself - enroll now!
