

Shared Branching: Another Credit Union Difference!

Welcome Federal Credit Union (WFCU) is partnered with other credit unions across the country to provide you with more access to your accounts and money. Proudly, we are a part of the **Shared Branching** network, a fast-growing national network of credit unions that allow members of other credit unions to use their branches to conduct basic teller transactions.

There are more than 5,300 Shared Branching locations nationwide, including more than 99 in North Carolina. What can you do at a Shared Branching location? Almost everything you normally do* with an MSR/teller at WFCU including:

- ◆ Make Deposits
- ◆ Cash checks
- ◆ Withdraw funds
- ◆ Transfer monies from one account to another
- ◆ Obtain balance inquiries
- ◆ Make loan payments and advances

When conducting a transaction at a Shared Branching location, the host credit union will require your credit union name (Welcome Federal Credit Union), your account number, and a photo ID.

Accessing your WFCU accounts has never been more convenient. Find a Shared Branching location near your home, work, or favorite vacation spot, using the Shared Branching Web site at www.co-opsharedbranching.org/.

This logo will be posted at all credit unions that participate in Shared Branching:

We are pleased to offer Shared Branching at the following WFCU branches:

- Main Branch; 10810 Chapel Hill Road; Morrisville, NC
- Greenville Branch; 250-C Easy Street; Greenfield North Plaza Shopping Center; Greenville, NC
